FINNISH FOOD WORKERS' UNION

The union belongs to everyone, everyone belongs in the union!

Spend 10 minutes of your time to read about the benefits of being a member of a trade union.

Do you know why you have these rights?

	The collective agreement negotiated by your trade union SEL	Finnish legislation

We have achieved these employees' rights thanks to employees who have organized as union members. In order to retain these rights, we must continue to have a high degree of organization and, if necessary, defend our rights together as a group.

Make the right decision and join the union, it doesn't cost too much!

SEL membership always pays off, regardless of the type of employment contract you have. Union membership provides security in case of any problems arising in your working life. It also allows you to accumulate earnings-related unemployment allowance. The union membership fee includes unemployment fund membership.

SEL's membership fee is 1.4% of your gross salary. Your employer can deduct the membership fee from your salary directly, or if you prefer you can calculate and pay the membership fee to the union every month yourself.

The membership fee is tax-deductible. When union membership fees are deducted from your final taxation, you will pay less for membership than what is stated in your payslip.

How to join:

You can become a member of SEL by filling in a membership application together with the union representative at your workplace. You can also join at www.selry.fi/join or at a regional office of SEL. If you are already a member of SEL, recommend membership to your work colleagues or fellow food industry students.
